## 1. Model details

Model name:

Diseño Lógico\_vul

**Version:** 

1.0

**Description:** 

## 2. Entities

### 2.1. Entity Cliente

#### 2.1.1. Attributes

| Attribute name          | Туре         | Is mandatory | Is primary<br>identifier | Description |
|-------------------------|--------------|--------------|--------------------------|-------------|
| id_cliente              | Integer      | yes          | yes                      |             |
| nombre                  | Varchar(100) | yes          | no                       |             |
| apellido                | Varchar(60)  | yes          | no                       |             |
| dirección               | Varchar(255) | yes          | no                       |             |
| celular                 | Char(9)      | yes          | no                       |             |
| correo_electr<br>ónico  | Varchar(255) | yes          | no                       |             |
| tipo_de_docum<br>ento   | Char(3)      | yes          | no                       |             |
| numero-<br>de_documento | Varchar(20)  | yes          | no                       |             |
| attribute_9             | Integer      | yes          | no                       |             |
| fecha                   | Date         | yes          | no                       |             |
| estado                  | Boolean      | yes          | no                       |             |

### 2.2. Entity Orden\_de\_Servicio

#### 2.2.1. Attributes

| Attribute name | Туре      | Is mandatory | Is primary<br>identifier | Description |
|----------------|-----------|--------------|--------------------------|-------------|
| id_orden       | Integer   | yes          | yes                      |             |
| id_cliente     | Integer   | yes          | no                       |             |
| id_producto    | Integer   | yes          | no                       |             |
| fecha          | Timestamp | yes          | no                       |             |
| estado         | Char(1)   | yes          | no                       |             |

### 2.3. Entity Producto

#### 2.3.1. Attributes

| Attribute name    | Туре              | Is mandatory | Is primary<br>identifier | Description |
|-------------------|-------------------|--------------|--------------------------|-------------|
| id_producto       | Integer           | yes          | yes                      |             |
| nombre            | Varchar(60)       | yes          | no                       |             |
| tipo              | Varchar(50)       | yes          | no                       |             |
| marca             | Varchar(50)       | yes          | no                       |             |
| precio            | Decimal(10,<br>2) | yes          | no                       |             |
| stock             | Integer           | yes          | no                       |             |
| ¿Hay en<br>stock? | Boolean           | yes          | no                       |             |
| Fecha_de_regi     | Timestamp         | yes          | no                       |             |

## 2.4. Entity Vehículo

#### 2.4.1. Attributes

| Attribute name | Туре        | Is mandatory | Is primary<br>identifier | Description |
|----------------|-------------|--------------|--------------------------|-------------|
| id_vehículo    | Integer     | yes          | yes                      |             |
| id_cliente     | Integer     | yes          | no                       |             |
| marca          | Varchar(50) | yes          | no                       |             |
| tipo           | Varchar(50) | yes          | no                       |             |
| placa          | Varchar(20) | yes          | no                       |             |

### 2.5. Entity Venta

#### 2.5.1. Attributes

| Attribute name | Туре              | Is mandatory | Is primary<br>identifier | Description |
|----------------|-------------------|--------------|--------------------------|-------------|
| id_venta       | Integer           | yes          | yes                      |             |
| id_cliente     | Integer           | yes          | no                       |             |
| fecha          | Timestamp         | yes          | no                       |             |
| total          | Decimal(10,<br>2) | yes          | no                       |             |

## 2.6. Entity Detalle\_de\_venta

### 2.6.1. Attributes

| Attribute name       | Туре              | Is mandatory | Is primary<br>identifier | Description |
|----------------------|-------------------|--------------|--------------------------|-------------|
| id_detalle_ve<br>nta | Integer           | yes          | yes                      |             |
| id_venta             | Integer           | yes          | no                       |             |
| id_producto          | Integer           | yes          | no                       |             |
| cantidad             | Integer           | yes          | no                       |             |
| precio_unitar<br>io  | Decimal(10,<br>2) | yes          | no                       |             |

## 2.7. Entity servicio

### 2.7.1. Attributes

| Attribute name      | Туре          | Is mandatory | Is primary<br>identifier | Description |
|---------------------|---------------|--------------|--------------------------|-------------|
| id_servicio         | Integer       | yes          | yes                      |             |
| tipo_servicio       | Varchar(50)   | yes          | no                       |             |
| descripcion         | Text(100)     | yes          | no                       |             |
| estado_vehícu<br>lo | Boolean       | yes          | no                       |             |
| date                | Date          | yes          | no                       |             |
| price               | Number(10, 2) | yes          | no                       |             |

## 3. Associations

## 4. Entity relationships

### 4.1. Entity relationship Orden\_de\_Servicio\_Cliente

| Cliente | 1*  | Orden_de_Servicio |
|---------|-----|-------------------|
|         | <-> |                   |

### 4.2. Entity relationship Vehículo\_Cliente

| Cliente | 1*  | Vehículo |
|---------|-----|----------|
|         | <-> |          |

### 4.3. Entity relationship Orden\_de\_Servicio\_Producto

| Producto | 1*  | Orden_de_Servicio |
|----------|-----|-------------------|
|          | <-> |                   |

### 4.4. Entity relationship Detalle\_de\_venta\_Producto

| Producto | 1*  | Detalle_de_venta |
|----------|-----|------------------|
|          | <-> |                  |

### 4.5. Entity relationship Venta\_Cliente

| Cliente | 1*  | Venta |
|---------|-----|-------|
|         | <-> |       |

### 4.6. Entity relationship Detalle\_de\_venta\_Venta

| Venta | 1*  | Detalle_de_venta |
|-------|-----|------------------|
|       | <-> |                  |

### 4.7. Entity relationship Orden\_de\_Servicio\_servicio

| servicio | 1*  | Orden_de_Servicio |
|----------|-----|-------------------|
|          | <-> |                   |

## 5. Association relationships

## 6. Areas

## 7. Notes
